

I listen to K-Love first thing in the morning as it is set on my alarm clock. It's the main station I listen to in the car and when I'm alone at home. It lifts my spirits and encourages me throughout the day. It would be a sad day to turn on the radio and not be able to pick up the k-love signal and to hear some other sort of broadcast! I tell everyone about this wonderful radio station; please don't let it's signal get lost!!
